WA SNF Survey Deficiencies

Based on Nursing Home Compare - Survey Deficiency

Deficiency	Scope	Level of Harm
approved construction type or materials.	Pattern	Minimal harm or potential for actual harm
corridor and hallway doors that block smoke.	Pattern	Minimal harm or potential for actual harm
smoke barrier doors that can resist smoke for at least 20 minutes.	Isolated	Minimal harm or potential for actual harm
construction that can resist fire for one hour or an approved fire extinguishing system.	Pattern	Minimal harm or potential for actual harm
record of quarterly fire drills for each shift under varying conditions.	Widespread	Minimal harm or potential for actual harm
restrictions on the use of portable space heaters.	Isolated	Minimal harm or potential for actual harm
properly constructed linen or trash chutes.	Isolated	Minimal harm or potential for actual harm
fire safety features required by current fire safety codes.	Isolated	Minimal harm or potential for actual harm
weekly inspections and monthly testing of generators.	Widespread	Minimal harm or potential for actual harm
properly installed electrical wiring and equipment.	Isolated	Minimal harm or potential for actual harm

from spreading.

harm

1) Hire only people who have no legal history of abusing, neglecting or mistreating residents; or 2) report and investigate any acts or reports of abuse, neglect or mistreatment of residents.

Pattern

Minimal harm or potential for actual harm

Give professional services that meet a professional standard of quality.

Pattern

Minimal harm or potential for actual harm

Give each resident care and services to get or keep the highest quality of life possible.

Pattern

Minimal harm or potential for actual harm

Make sure that each resident who enters the nursing home without a catheter is not given a catheter, unless it is necessary.

Isolated

Minimal harm or potential for actual harm

Make sure that the nursing home area is free of dangers that cause accidents.

Isolated

Minimal harm or potential for actual harm

Properly care for residents needing special services, including: injections, colostomy, ureostomy, ileostomy, tracheostomy care, tracheal

with developmental disabilities or mental illness, if needed.

Make sure that the nursing home area is free of dangers that cause accidents.

Isolated

Minimal harm or potential for actual harm

Store, cook, and give out food in a safe and clean way.

Pattern

Minimal harm or potential for actual harm

corridors that are separated from common areas by walls constructed to limit the passage of smoke.

Widespread

Minimal harm or potential for actual harm

corridor and hallway doors that block smoke.

Pattern

Minimal harm or potential for actual harm

record of quarterly fire drills for each shift under varying conditions.

Widespread

Minimal harm or potential for actual harm

proper construction of ducts through walls designed to prevent smoke passage.

Pattern

Minimal harm or potential for actual harm

weekly inspections and monthly testing of generators.

Widespread

Potential for minimal harm

Tell the resident completely about his or her health status.

Pattern

Minimal harm or potential for actual harm

Allow residents to easily see the results of the nursing home's most recent survey.

Pattern

Potential for minimal harm

is carefully watched; or 3) stop or change drugs that cause unwanted effects.

Prepare food that is nutritional, appetizing, tasty, attractive, well-cooked, and at the right temperature.

Pattern

Potential for minimal harm

Have a program to keep infection from spreading.

Widespread

Minimal harm or potential for actual harm

Immediately tell the resident, doctor, and a family member if: the resident is injured, there is a major change in resident's physical/mental health, there is a need to alter treatment significantly, or the resident must be transferred or discharged.

Isolated

Minimal harm or potential for actual harm

Keep each resident's personal and medical records private and confidential.

Pattern

Potential for minimal harm

Make a complete assessment that covers all questions for areas that are listed in official regulations.

Isolated

Minimal harm or potential for actual harm

Give professional services that meet a professional standard of

physical restraints, unless
needed for medical treatment.

Provide needed housekeeping
and maintenance.

Pattern

Minimal harm or potential for actual
harm

Make sure that each resident
who enters the nursing home
without a catheter is not given a
catheter, unless it is necessary.

Isolated

Actual harm

Make sure that the nursing home
area is free of dangers that cause
accidents.

Isolated

Minimal harm or potential for actual
harm

Make sure that the attending
doctor orders special diets.

Isolated

Minimal harm or potential for actual
harm

Store, cook, and give out food in
a safe and clean way.

Pattern

Potential for minimal harm

Use properly trained paid feeding
assistants, provide licensed
nursing supervision of the feeding
assistants, or properly monitor
the feeding of its residents.

Pattern

Minimal harm or potential for actual
harm

corridor and hallway doors that
block smoke.

Widespread

Potential for minimal harm

smoke barrier doors that can
resist smoke for at least 20
minutes.

Isolated

Minimal harm or potential for actual
harm

names and addresses of State groups that can help.

Keep each resident free from physical restraints, unless needed for medical treatment.

Isolated

Actual harm

Give enough notice to the resident before changing the resident's room or roommate.

Isolated

Minimal harm or potential for actual harm

Make a complete assessment that covers all questions for areas that are listed in official regulations.

Pattern

Minimal harm or potential for actual harm

Develop a complete care plan that meets all of a resident's needs, with timetables and actions that can be measured.

Isolated

Minimal harm or potential for actual harm

1) Make sure that residents who take drugs are not given too many doses or for too long; 2) make sure that the use of drugs is carefully watched; or 3) stop or change drugs that cause unwanted effects.

Isolated

Minimal harm or potential for actual harm

Develop/implement required procedures for the administration of immunizations.

Widespread

Potential for minimal harm

resident achieve the highest possible quality of life.

Make a complete assessment that covers all questions for areas that are listed in official regulations.

Pattern

Minimal harm or potential for actual harm

Give professional services that meet a professional standard of quality.

Pattern

Minimal harm or potential for actual harm

Give each resident care and services to get or keep the highest quality of life possible.

Isolated

Minimal harm or potential for actual harm

Make sure that residents who cannot care for themselves receive help with eating/drinking, grooming and hygiene.

Pattern

Minimal harm or potential for actual harm

Make sure that each resident who enters the nursing home without a catheter is not given a catheter, unless it is necessary.

Isolated

Minimal harm or potential for actual harm

1) Make sure that residents who take drugs are not given too many doses or for too long; 2) make sure that the use of drugs is carefully watched; or 3) stop or change drugs that cause

done by the right professional,
and are signed by the person
completing them.

Develop a complete care plan
that meets all of a resident's
needs, with timetables and
actions that can be measured.

Pattern

Minimal harm or potential for actual
harm

Give professional services that
meet a professional standard of
quality.

Pattern

Minimal harm or potential for actual
harm

Give each resident care and
services to get or keep the
highest quality of life possible.

Isolated

Minimal harm or potential for actual
harm

Properly care for residents
needing special services,
including: injections, colostomy,
ureostomy, ileostomy,
tracheostomy care, tracheal
suctioning, respiratory care, foot
care, and prostheses.

Pattern

Minimal harm or potential for actual
harm

1) Make sure that residents who
take drugs are not given too
many doses or for too long; 2)
make sure that the use of drugs
is carefully watched; or 3) stop or
change drugs that cause

highest quality of life possible.

record of quarterly fire drills for each shift under varying conditions.

Widespread

Minimal harm or potential for actual harm

automatic sprinkler systems that have been maintained in working order.

Widespread

Minimal harm or potential for actual harm

exits that are free from obstructions and can be used at all times.

Widespread

Minimal harm or potential for actual harm

properly installed electrical wiring and equipment.

Isolated

Minimal harm or potential for actual harm

properly installed hallway dispensers for alcohol-based hand rub.

Isolated

Minimal harm or potential for actual harm

Give professional services that meet a professional standard of quality.

Isolated

Minimal harm or potential for actual harm

Give each resident care and services to get or keep the highest quality of life possible.

Isolated

Minimal harm or potential for actual harm

Make sure that residents who cannot care for themselves receive help with eating/drinking, grooming and hygiene.

Isolated

Minimal harm or potential for actual harm

possible quality of life.

Give professional services that meet a professional standard of quality.

Pattern

Minimal harm or potential for actual harm

Give each resident care and services to get or keep the highest quality of life possible.

Pattern

Minimal harm or potential for actual harm

Give residents proper treatment to prevent new bed (pressure) sores or heal existing bed sores.

Isolated

Minimal harm or potential for actual harm

Make sure that each resident who enters the nursing home without a catheter is not given a catheter, unless it is necessary.

Pattern

Minimal harm or potential for actual harm

Make sure that residents with reduced range of motion get proper treatment and services to increase range of motion.

Isolated

Minimal harm or potential for actual harm

Give proper treatment to residents with feeding tubes to prevent problems (such as aspiration pneumonia, diarrhea, vomiting, dehydration, metabolic abnormalities, nasal-pharyngeal ulcers) and help restore eating skills, if possible.

Isolated

Minimal harm or potential for actual harm

to prevent new bed (pressure)
sores or heal existing bed sores.

Make sure that the nursing home
area is free of dangers that cause
accidents.

Pattern

Minimal harm or potential for actual
harm

1) Make sure that residents who
take drugs are not given too
many doses or for too long; 2)
make sure that the use of drugs
is carefully watched; or 3) stop or
change drugs that cause
unwanted effects.

Isolated

Minimal harm or potential for actual
harm

Keep the rate of medication
errors (wrong drug, wrong dose,
wrong time) to less than 5%.

Isolated

Minimal harm or potential for actual
harm

Properly mark drugs and other
similar products.

Pattern

Minimal harm or potential for actual
harm

Have a program to keep infection
from spreading.

Isolated

Minimal harm or potential for actual
harm

Train all employees on what to do
in an emergency.

Pattern

Minimal harm or potential for actual
harm

approved construction type or
materials.

Isolated

Minimal harm or potential for actual
harm

corridor and hallway doors that
block smoke.

Pattern

Minimal harm or potential for actual
harm

for a faulty fire alarm system.

harm

Provide social services for related medical problems to help each resident achieve the highest possible quality of life.

Pattern

Minimal harm or potential for actual harm

Develop a complete care plan that meets all of a resident's needs, with timetables and actions that can be measured.

Isolated

Minimal harm or potential for actual harm

1) Make sure that residents who take drugs are not given too many doses or for too long; 2) make sure that the use of drugs is carefully watched; or 3) stop or change drugs that cause unwanted effects.

Pattern

Minimal harm or potential for actual harm

Have drugs and other similar products available, which are needed every day and in emergencies, and give them out properly.

Isolated

Minimal harm or potential for actual harm

corridor and hallway doors that block smoke.

Pattern

Minimal harm or potential for actual harm

record of quarterly fire drills for each shift under varying conditions.

resident's family or representative; or 3) check and update the care plan.

Make sure that the nursing home area is free of dangers that cause accidents.

Isolated

Minimal harm or potential for actual harm

Prepare food that is nutritional, appetizing, tasty, attractive, well-cooked, and at the right temperature.

Pattern

Minimal harm or potential for actual harm

Store, cook, and give out food in a safe and clean way.

Widespread

Minimal harm or potential for actual harm

Have a program to keep infection from spreading.

Isolated

Minimal harm or potential for actual harm

Keep all essential equipment working safely.

Widespread

Minimal harm or potential for actual harm

Make sure that a working call system is available in each resident's room or bathroom and bathing area.

Pattern

Minimal harm or potential for actual harm

Have enough backup water supply for important areas of the nursing home.

Widespread

Minimal harm or potential for actual harm

Quickly give a resident's personal money to the heads of his or her estate after the resident's death.

Pattern

Potential for minimal harm

from spreading.

harm

exits that are free from obstructions and can be used at all times.

Widespread

Potential for minimal harm

Immediately tell the resident, doctor, and a family member if: the resident is injured, there is a major change in resident's physical/mental health, there is a need to alter treatment significantly, or the resident must be transferred or discharged.

Pattern

Minimal harm or potential for actual harm

Give each resident care and services to get or keep the highest quality of life possible.

Pattern

Minimal harm or potential for actual harm

Make sure that residents who cannot care for themselves receive help with eating/drinking, grooming and hygiene.

Pattern

Minimal harm or potential for actual harm

Give residents proper treatment to prevent new bed (pressure) sores or heal existing bed sores.

Isolated

Actual harm

Make sure that each resident who enters the nursing home without a catheter is not given a catheter, unless it is necessary.

Pattern

Minimal harm or potential for actual harm

WA SNF Survey Deficiencies

Based on Nursing Home Compare - Survey Deficiency

Make sure that the nursing home area is free of dangers that cause accidents.	Isolated	Actual harm
Use a registered nurse at least 8 hours a day, 7 days a week.	Widespread	Minimal harm or potential for actual harm
Store, cook, and give out food in a safe and clean way.	Widespread	Minimal harm or potential for actual harm
Properly mark drugs and other similar products.	Isolated	Minimal harm or potential for actual harm
Have a program to keep infection from spreading.	Widespread	Minimal harm or potential for actual harm
Provide rooms that are big enough for each resident.	Isolated	Minimal harm or potential for actual harm
1) Review the work of each nurse aide every year; or 2) give regular training for the nurse aides.	Widespread	Minimal harm or potential for actual harm
Tell the resident completely about his or her health status.	Pattern	Minimal harm or potential for actual harm
Provide social services for related medical problems to help each resident achieve the highest possible quality of life.	Isolated	Minimal harm or potential for actual harm
Develop a complete care plan that meets all of a resident's needs, with timetables and actions that can be measured.	Pattern	Minimal harm or potential for actual harm

WA SNF Survey Deficiencies

Based on Nursing Home Compare - Survey Deficiency

Prevent a loss in range of motion among residents who entered the nursing home with a full range of motion.	Isolated	Actual harm
Give or get special rehabilitation if in the patient's plan of care.	Isolated	Minimal harm or potential for actual harm
corridor and hallway doors that block smoke.	Widespread	Minimal harm or potential for actual harm
exit doors that are held open by devices that will automatically close on the activation of a fire alarm or smoke detectors.	Pattern	Minimal harm or potential for actual harm
smoke barrier doors that can resist smoke for at least 20 minutes.	Widespread	Minimal harm or potential for actual harm
proper backup exit lighting.	Widespread	Potential for minimal harm
record of quarterly fire drills for each shift under varying conditions.	Isolated	Minimal harm or potential for actual harm
restrictions on the use of highly flammable materials.	Pattern	Minimal harm or potential for actual harm
Give professional services that meet a professional standard of quality.	Isolated	Minimal harm or potential for actual harm

many doses or for too long; 2) make sure that the use of drugs is carefully watched; or 3) stop or change drugs that cause unwanted effects.

Keep the rate of medication errors (wrong drug, wrong dose, wrong time) to less than 5%.

Isolated

Minimal harm or potential for actual harm

Have drugs and other similar products available, which are needed every day and in emergencies, and give them out properly.

Widespread

Potential for minimal harm

Have a program to keep infection from spreading.

Pattern

Potential for minimal harm

Provide care in a way that keeps or builds each resident's dignity and self respect.

Isolated

Minimal harm or potential for actual harm

Provide needed housekeeping and maintenance.

Pattern

Potential for minimal harm

Give each resident care and services to get or keep the highest quality of life possible.

Isolated

Minimal harm or potential for actual harm

Make sure that residents receive treatment/services to continue to be able to care for themselves,

a safe and clean way.

1) Review the work of each nurse aide every year; or 2) give regular training for the nurse aides.

harm

Minimal harm or potential for actual harm

Train all employees on what to do in an emergency.

Isolated

Minimal harm or potential for actual harm

Make sure that each resident who enters the nursing home without a catheter is not given a catheter, unless it is necessary.

Isolated

Minimal harm or potential for actual harm

Make sure that the nursing home area is free of dangers that cause accidents.

Isolated

Minimal harm or potential for actual harm

1) Make sure that residents who take drugs are not given too many doses or for too long; 2) make sure that the use of drugs is carefully watched; or 3) stop or change drugs that cause unwanted effects.

Isolated

Minimal harm or potential for actual harm

Send and promptly deliver unopened mail to residents.

Pattern

Potential for minimal harm

Provide care in a way that keeps or builds each resident's dignity and self respect.

Pattern

Minimal harm or potential for actual harm

results of the nursing home's most recent survey.

Make sure that the nursing home area is free of dangers that cause accidents.

Isolated

Actual harm

Make sure that each resident's nutritional needs were met.

Pattern

Minimal harm or potential for actual harm

Have enough nurses to care for every resident in a way that maximizes the resident's well being.

Isolated

Minimal harm or potential for actual harm

Have a program to keep infection from spreading.

Isolated

Minimal harm or potential for actual harm

Have enough backup water supply for important areas of the nursing home.

Pattern

Potential for minimal harm

walls or barriers that prevent smoke from passing through and would resist fire for at least one hour.

Isolated

Minimal harm or potential for actual harm

exit stairways and towers that are smoke proof.

Isolated

Minimal harm or potential for actual harm

automatic sprinkler systems that have been maintained in working order.

Isolated

Minimal harm or potential for actual harm

that meets all of a resident's needs, with timetables and actions that can be measured.

harm

Make sure that the nursing home area is free of dangers that cause accidents.

Pattern

Minimal harm or potential for actual harm

Properly care for residents needing special services, including: injections, colostomy, ureostomy, ileostomy, tracheostomy care, tracheal suctioning, respiratory care, foot care, and prostheses.

Pattern

Minimal harm or potential for actual harm

1) Make sure that residents who take drugs are not given too many doses or for too long; 2) make sure that the use of drugs is carefully watched; or 3) stop or change drugs that cause unwanted effects.

Isolated

Minimal harm or potential for actual harm

Store, cook, and give out food in a safe and clean way.

Pattern

Minimal harm or potential for actual harm

Have a program to keep infection from spreading.

Isolated

Minimal harm or potential for actual harm

Keep clinical information safe, so that it will not be lost, destroyed

make sure that the use of drugs is carefully watched; or 3) stop or change drugs that cause unwanted effects.

Keep accurate and appropriate medical records.

Pattern

Potential for minimal harm

record of quarterly fire drills for each shift under varying conditions.

Widespread

Minimal harm or potential for actual harm

back-up procedures in place for a faulty automatic sprinkler system.

Widespread

Minimal harm or potential for actual harm

approved construction type or materials.

Pattern

Minimal harm or potential for actual harm

posted "No-smoking" signs in areas where smoking is not permitted or did not provide ashtrays where smoking was allowed.

Pattern

Minimal harm or potential for actual harm

Immediately tell the resident, doctor, and a family member if: the resident is injured, there is a major change in resident's physical/mental health, there is a need to alter treatment significantly, or the resident must be transferred or discharged.

Isolated

Minimal harm or potential for actual harm

abuse, neglect or mistreatment of residents.

Give professional services that meet a professional standard of quality.

Pattern

Minimal harm or potential for actual harm

Give proper treatment to residents with feeding tubes to prevent problems (such as aspiration pneumonia, diarrhea, vomiting, dehydration, metabolic abnormalities, nasal-pharyngeal ulcers) and help restore eating skills, if possible.

Isolated

Minimal harm or potential for actual harm

Make sure that the nursing home area is free of dangers that cause accidents.

Isolated

Minimal harm or potential for actual harm

1) Make sure that residents who take drugs are not given too many doses or for too long; 2) make sure that the use of drugs is carefully watched; or 3) stop or change drugs that cause unwanted effects.

Isolated

Minimal harm or potential for actual harm

Prepare food that is nutritional, appetizing, tasty, attractive, well-cooked, and at the right

Pattern

Potential for minimal harm

receive help with eating/drinking,
grooming and hygiene.

Give residents proper treatment
to prevent new bed (pressure)
sores or heal existing bed sores.

Isolated

Actual harm

Make sure that each resident
who enters the nursing home
without a catheter is not given a
catheter, unless it is necessary.

Isolated

Minimal harm or potential for actual
harm

Make sure that residents with
reduced range of motion get
proper treatment and services to
increase range of motion.

Isolated

Minimal harm or potential for actual
harm

Make sure that the nursing home
area is free of dangers that cause
accidents.

Isolated

Minimal harm or potential for actual
harm

Make sure that each resident's
nutritional needs were met.

Isolated

Minimal harm or potential for actual
harm

Make sure that residents are safe
from serious medication errors.

Isolated

Minimal harm or potential for actual
harm

post nurse staffing information.

Pattern

Potential for minimal harm

Prepare food that is nutritional,
appetizing, tasty, attractive, well-
cooked, and at the right
temperature.

money which is deposited with the nursing home.

Write and use policies that forbid mistreatment, neglect and abuse of residents and theft of residents' property.

Pattern

Minimal harm or potential for actual harm

Give residents proper treatment to prevent new bed (pressure) sores or heal existing bed sores.

Isolated

Actual harm

Make sure that the nursing home area is free of dangers that cause accidents.

Isolated

Minimal harm or potential for actual harm

1) Make sure that residents who take drugs are not given too many doses or for too long; 2) make sure that the use of drugs is carefully watched; or 3) stop or change drugs that cause unwanted effects.

Isolated

Minimal harm or potential for actual harm

Have a program to keep infection from spreading.

Pattern

Minimal harm or potential for actual harm

Keep accurate and appropriate medical records.

Pattern

Minimal harm or potential for actual harm

automatic sprinkler systems that have been maintained in working order.

Widespread

Minimal harm or potential for actual harm

WA SNF Survey Deficiencies

Based on Nursing Home Compare - Survey Deficiency

done by the right professional,
and are signed by the person
completing them.

Give professional services that meet a professional standard of quality.	Isolated	Minimal harm or potential for actual harm
--	----------	---

Give each resident care and services to get or keep the highest quality of life possible.	Isolated	Actual harm
---	----------	-------------

Give residents proper treatment to prevent new bed (pressure) sores or heal existing bed sores.	Isolated	Actual harm
---	----------	-------------

Make sure that each resident who enters the nursing home without a catheter is not given a catheter, unless it is necessary.	Isolated	Minimal harm or potential for actual harm
--	----------	---

Make sure that residents with reduced range of motion get proper treatment and services to increase range of motion.	Isolated	Minimal harm or potential for actual harm
--	----------	---

Make sure that the nursing home area is free of dangers that cause accidents.	Isolated	Minimal harm or potential for actual harm
---	----------	---

Keep the rate of medication errors (wrong drug, wrong dose, wrong time) to less than 5%.	Isolated	Minimal harm or potential for actual harm
--	----------	---

that meets all of a resident's needs, with timetables and actions that can be measured.

harm

1) Develop a complete care plan within 7 days of each resident's admission; 2) prepare a care plan with the care team, including the primary nurse, doctor, resident or resident's family or representative; or 3) check and update the care plan.

Minimal harm or potential for actual harm

Give professional services that meet a professional standard of quality.

Isolated

Minimal harm or potential for actual harm

Make sure that each resident who enters the nursing home without a catheter is not given a catheter, unless it is necessary.

Isolated

Minimal harm or potential for actual harm

Store, cook, and give out food in a safe and clean way.

Widespread

Minimal harm or potential for actual harm

Train all employees on what to do in an emergency.

Widespread

Minimal harm or potential for actual harm

properly sized and located linen or trash receptacles.

Isolated

Minimal harm or potential for actual harm

properly installed electrical wiring and equipment.

Pattern

Potential for minimal harm

catheter, unless it is necessary.

Make sure that the nursing home area is free of dangers that cause accidents.

Isolated

Minimal harm or potential for actual harm

Properly care for residents needing special services, including: injections, colostomy, ureostomy, ileostomy, tracheostomy care, tracheal suctioning, respiratory care, foot care, and prostheses.

Pattern

Minimal harm or potential for actual harm

Keep the rate of medication errors (wrong drug, wrong dose, wrong time) to less than 5%.

Isolated

Minimal harm or potential for actual harm

Use a registered nurse at least 8 hours a day, 7 days a week.

Isolated

Minimal harm or potential for actual harm

Have drugs and other similar products available, which are needed every day and in emergencies, and give them out properly.

Isolated

Minimal harm or potential for actual harm

Be designed, built, equipped, or well kept to protect the health and safety of residents, workers, and the public.

Widespread

Minimal harm or potential for actual harm

1) Review the work of each nurse

highest quality of life possible.

Give residents proper treatment to prevent new bed (pressure) sores or heal existing bed sores.	Pattern	Minimal harm or potential for actual harm
---	---------	---

1) Make sure that residents who take drugs are not given too many doses or for too long; 2) make sure that the use of drugs is carefully watched; or 3) stop or change drugs that cause unwanted effects.	Pattern	Minimal harm or potential for actual harm
---	---------	---

Keep the rate of medication errors (wrong drug, wrong dose, wrong time) to less than 5%.	Isolated	Minimal harm or potential for actual harm
--	----------	---

Make sure that residents are well nourished.	Pattern	Minimal harm or potential for actual harm
--	---------	---

Prepare food that is nutritional, appetizing, tasty, attractive, well-cooked, and at the right temperature.	Isolated	Minimal harm or potential for actual harm
---	----------	---

Store, cook, and give out food in a safe and clean way.	Pattern	Minimal harm or potential for actual harm
---	---------	---

Have a program to keep infection from spreading.	Widespread	Minimal harm or potential for actual harm
--	------------	---

Keep accurate and appropriate medical records.	Pattern	Minimal harm or potential for actual harm
--	---------	---
